ABOUT HACKATOPIA

HACKATOPIA 2026 is a 24-hour national-level hackathon that brings together developers, innovators, and problem-solvers to Code • Collaborate • Create impactful technological solutions.

The hackathon will be conducted in two phases:

- Phase 1 - Ideathon: Submission and evaluation of the team's proposed idea. 🌍
- Phase 2 - 24-Hour Hackathon: Shortlisted teams will participate in the final 24-hour hackathon and develop their solution.

The event is designed to encourage innovation, technical skills, creativity, collaboration, and real-world problem solving.

TEAM & ELIGIBILITY RULES

- Each team must consist of 2 to 4 members.
- Every team must have a Team Leader.
- Only the Team Leader will be responsible for submitting the registration form on behalf of the team.
- The Team Leader will be the primary point of contact for the team.
- Each team must select one preferred hackathon domain during registration.
- Only the registered team members are permitted to participate in the hackathon.
- Participants must provide accurate information during registration.
- Each participant can be a member of only one team.

These team-registration requirements are directly reflected in the official Hackatopia registration form.

HACKATHON DOMAINS

Teams must select one of the following domains during

HEALTHCARE
BUILDING
HEALTHIER
TOMORROWS

BLOCKCHAIN /
CYBER SECURITY
SECURING THE
DIGITAL
FUTURE

FINTECH
EMPOWERING
FINANCE,
ENRICHING
LIVES

OPEN
INNOVATIONS
OPEN MINDS.
LIMITLESS
POSSIBILITIES.

The selected domain should guide the team's proposed idea in Phase 1.

HACKATHON STRUCTURE

PHASE 1 – IDEATHON

Phase 1 is the idea submission and shortlisting round. Teams are required to submit a PPT presenting their proposed solution.

PHASE 1 PPT SHOULD COMMUNICATE:

- Problem understanding
- Existing challenges/Problem gap
- Proposed solution
- Innovation & Unique Value Proposition
- How the solution works
- Technology Stack
- System Architecture
- Technical Feasibility & Implementation Plan
- Impact & Scalability
- Conclusion & Future scope

Submission Deadline: 28 September 2026

Only the Team Leader is responsible for submitting the team's Phase 1 PPT.

Further Phase 1 submission instructions will be communicated through the official HACKATOPIA WhatsApp group

HACKATHON STRUCTURE

PHASE 1 – SHORTLISTING

- All Phase 1 submissions will be evaluated by the designated judging panel.
- Teams will be shortlisted based on the quality and potential of their submitted idea.
- Shortlisted teams will be invited to participate in the final 24-hour hackathon.
- Details regarding the shortlisted teams and further participation requirements will be communicated through the official communication channel.

SUGGESTED PHASE 1 EVALUATION PARAMETERS
ARE NOT CONFIRMED

HACKATHON STRUCTURE

SHORTLISTED TEAM CONFIRMATION

After Phase 1 shortlisting, selected teams will be required to confirm their participation in the final round.

Shortlisted teams may be required to submit:

- Confirmation of participation
- Final team/member details
- Contact information
- Payment/registration details
- Project/idea information
- Any other information requested by the organizing committee

REGISTRATION FEE FOR FINAL ROUND

₹1,000 PER TEAM

THE FEE IS APPLICABLE UPON SELECTION FOR THE FINAL ROUND, AS SPECIFIED IN THE OFFICIAL HACKATOPIA POSTER.

DEADLINE FOR CONFIRMATION/PAYMENT: TO BE ANNOUNCED BY THE ORGANIZING COMMITTEE

HACKATHON STRUCTURE

PHASE 2 – 24-HOUR HACKATHON

The shortlisted teams will participate in the 24-hour final hackathon.

Date: 8th & 9th October 2026

Duration: 24 Hours

During Phase 2:

- Teams will work on the problem statement/challenge provided by the organizers.
- Teams must develop their solution within the allotted hackathon duration.
- The solution should address the assigned problem statement.
- Teams are expected to produce a working prototype/MVP by the end of the hackathon.
- Teams must participate in the final evaluation and project demonstration.

DEVELOPMENT RULES

- The solution must be developed by the registered team members.
- Teams may use programming languages, frameworks, libraries, APIs, and other publicly available development resources, subject to organizer guidelines.
- Teams must not plagiarize or directly copy another team's work.
- Previously developed projects or substantially completed solutions should not be submitted as newly developed hackathon projects.
- Teams must be able to explain and demonstrate their submitted solution.
- Every team member should contribute meaningfully to the project.

AI USAGE POLICY

AI tools may be used as supporting tools during the hackathon, including for:

- Research
- Brainstorming
- Coding assistance
- Debugging
- Documentation
- Design assistance
- Testing
- Learning and development

However:

- Teams must understand the work submitted.
- Teams must be able to explain their project, architecture, implementation, and technology choices.
- AI-generated work should not be blindly used without understanding or meaningful contribution from the team. The core idea, decision-making, implementation, and innovation should reflect the team's own work.

PROJECT SUBMISSION

At the end of the 24-hour hackathon, each team must submit the required project deliverables before the announced deadline.

The final submission is expected to include:

- Working prototype / MVP
- Source code / repository
- Final presentation
- Project description/documentation(if required)
- Demo/presentation of the solution

Final submission format: "team name".pptx

FINAL PRESENTATION & DEMO

Each shortlisted team will present its completed project before the judging panel.

The presentation should cover:

1. Problem Statement
2. Proposed Solution
3. Innovation
4. Features
5. Technology Stack
6. System Architecture / Workflow
7. Implementation
8. Working Demonstration
9. Challenges Faced
10. Impact and Future Scope

Teams should be prepared to answer questions from the judges regarding their project and implementation.

JUDGING CRITERIA

FINAL ROUND

The final projects may be evaluated based on the following:

CRITERIA	EVALUATION FOCUS
• INNOVATION & ORIGINALITY	UNIQUENESS AND CREATIVITY
• TECHNICAL IMPLEMENTATION	FUNCTIONALITY AND TECHNICAL EXECUTION
• PROBLEM-SOLUTION FIT	EFFECTIVENESS IN ADDRESSING THE PROBLEM
• FEASIBILITY	PRACTICALITY AND REAL-WORLD IMPLEMENTATION
• IMPACT	POTENTIAL VALUE AND USEFULNESS
• USER EXPERIENCE	USABILITY AND DESIGN
• SCALABILITY	POTENTIAL FOR FUTURE GROWTH
• PRESENTATION & DEMO	CLARITY, DEMONSTRATION AND ABILITY TO ANSWER QUESTIONS

FAIR PLAY & CODE OF CONDUCT

All participants are expected to maintain professional and respectful conduct throughout the event.

The following are strictly prohibited:

- Plagiarism
- Cheating
- Submission of copied or previously submitted work
- Unauthorized collaboration between competing teams
- Misrepresentation of information
- Harassment or inappropriate behaviour
- Tampering with another team's work
- Any activity that provides an unfair advantage
- Any behaviour that disrupts the hackathon or damages the reputation of the institution/event

Participants must follow the instructions provided by the organizing committee and venue authorities.

DISQUALIFICATION

A team may be disqualified for serious violations, including:

- Plagiarism or copied work
- Use of substantially pre-built projects where prohibited
- Cheating or unfair practices
- Unauthorized collaboration
- False or misleading registration information
- Failure to comply with mandatory submission requirements
- Tampering with another team's project/work
- Serious violation of the code of conduct
- Any other violation considered serious by the organizing committee

The decision of the organizing/judging committee shall be final.

INTELLECTUAL PROPERTY

- Teams must ensure that their projects do not knowingly violate third-party intellectual property rights.
- Teams are responsible for obtaining appropriate permissions/licenses for third-party resources used in their projects.
- The ownership and usage rights of projects developed during Hackatopia will be governed by the official IP policy of the organizing institution.

FINAL IP CLAUSE: TO BE FINALIZED BY THE ORGANIZERS

ATTENDANCE & PARTICIPATION

- Shortlisted participants must report to the venue at the time specified by the organizers.
- Participants must follow the official hackathon schedule.
- Teams must participate in the mandatory evaluation and final presentation.
- Participants must carry valid identification if requested by the organizers.
- Any absence during mandatory stages may affect the team's eligibility for evaluation.

Specific attendance requirements: To be finalized

GENERAL RULES

- Participants are responsible for their own laptops, chargers, and other required equipment.
- Participants must take care of their personal belongings.
- Teams must maintain cleanliness and discipline at the venue.
- Any damage to institutional or venue property caused by participants may be subject to appropriate action.
- Participants must follow all safety and venue guidelines.
- The organizing committee reserves the right to take appropriate action in situations not explicitly covered in this rulebook.

CHANGES TO THE RULEBOOK

The organizing committee reserves the right to modify the event schedule, procedures, or rules if necessary. Any major changes will be communicated to the participants through the official HACKATOPIA communication channels. Participants are responsible for keeping themselves updated with official announcements.

CONSENT & MEDIA RELEASE

By participating in HACKATOPIA 2026, participants acknowledge that photographs, videos, and other event-related media may be captured during the event and may be used by the organizers for event documentation, promotional, and media purposes, subject to applicable institutional policies.

IMPORTANT DATES

Event	Date
Phase 1 – Ideathon PPT Submission Deadline	28 September 2026
24-Hour Hackathon	8th & 9th October 2026
Final Submission & Evaluation	During/at the end of the hackathon

OFFICIAL COMMUNICATION

All official updates, instructions, shortlisted-team information, deadlines, and further details will be communicated through the official HACKATOPIA WhatsApp group and other official channels designated by the organizing committee.
